

Eucalyptus Identification Workshop

South East Local Land Services

Local Land Services are offering two FREE eucalyptus identification workshops in June 2022

Rural landowners and interested community group members are invited to attend a workshop on how to identify common Eucalyptus species.

The day will begin with an introductory session and slide show by local botanist Jackie Miles, followed by two field trips.

You will learn the range of diagnostic features that help to identify each Eucalyptus species and see the intrinsic link of where they prefer to grow depending on soil type and climate.

Moruya Workshop

When: 21st June 2022

Time: 10am-2pm
